

C-Track Festoon Systems and Components

- For straight or mildly curved track
- Flat or round cable
- Trolley capacity: 40 lbs.

C-track systems operate at higher speeds over longer distances and at a heavier weight capacity than wire rope systems.

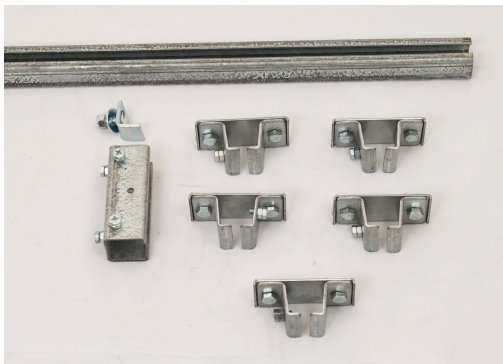

KH offers several types of pre-engineered C-Track Festooning Kits and individual components to create customized systems.

APPLICATIONS

C-track systems are suitable for indoor and outdoor use, including:

- Factory overhead cranes
- Hoist units
- Transport systems
- Environmental technology

C-TRACK FESTOON SYSTEMS KITS:

Track Kits include End Clamp, Splices, End Caps, Hangers, and C-track. Quantities vary based on length of track.

Track Kits with Trolley Cars include End Clamp, Splices, End Caps, Tow Bar, Car Trolleys, Hangers, and C-track. Quantities vary based on length of track.
