

Quad Lights Portable Lighting Systems

Temporary and portable wide area lighting for demanding work environments.

4 Foot High:

LED: 80 Watts/7,200 Lumens

Fluorescent: 128 Watts/ 11,800 Lumens

Model: QL420C-16A-10A

Model: QL410C-16A-10A

2 Foot High:

LED: 40 Watts/5,000 Lumens

Fluorescent: 68 Watts/5,200 Lumens

APPLICATIONS

Manufacturing, Inspection and Maintenance in:

- Aircraft
- Ground Transportation
- Marine and Ship Building
- Temporary Emergency Shelters/Tents

FEATURES

- Protected on/off switch
- User serviceable replacement parts, with most parts interchangeable between the two Quad Light sizes
- Integrated covered outlets allow feed through lighting
- Power Cord: 14/3 SJOW black; oil and water resistant
- Attachment Plug and Outlets: NEMA 5-15 for daisy chain, feed through lighting and grounded plug and connector
- String up to 12 fluorescent and 20 LED Quad Lights
- Durable design for rough service areas and continual use, includes lamp shock absorbers and impact resistant bulbs that protect against breakage from accidental drops and falls.
- Custom configurations available
