## Add-A-Light Features

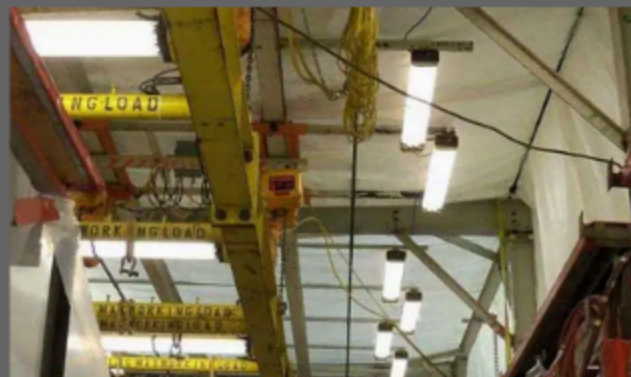

- Daisy chain up to 20 lights together
- Rated up to 50,000 hours
- No buzzing, humming or flickering
- Power Cord: 6' or 25' input with 1' or 2' output

## Temporary Job Site Lighting

With a variety of mounting options, including hanging vertically or horizontally the lights are often attached to scaffolding during construction, maintenance, repair, and overhaul work. In the photo to the right, KH Industries Quad Lights are being used for temporary job site lighting in a large turbine manufacturing facility.

Add-A-Lights used in a temporary emergency shelter

Portable lighting system with feed through outlets allowing for daisy chain use of multiple lights or power tools/equipment. Includes KH Flip-Seal plugs and LED bulbs.

Made in the USA
